

# CHILHAM SQUARE OPEN WORKSHOP

**CHILHAM CASTLE  
7PM ON 27TH MAY**

This workshop is open to everyone in the parish.

The objective of the workshop, open to everyone in the parish, is to clearly identify and rank community aspirations for the Square and its environs which subsequent workshops involving statutory stakeholders and community representatives can develop into a set of practical and achievable design parameters which, in turn, lead to a single buildable scheme.

***If you have any concerns or views on making our historic medieval Square a safer and more attractive visitor destination and community asset, and would like to attend, please contact us on 01227 752424 before 14th May.***

This is your chance to engage with other members in the community to agree what needs to be achieved to improve the Square and its environs

There will be an independent chairperson to keep the workshop focussed and ensure that everyone has a chance to air their views.
